E

All they want is our lips to be mended so we all continue to fight to defend

D^{6(add9)}/E

Because everyone around us is cryin' cause everyone beside them is dyin'

But, we've got nothing to worry about, we've got nothing to worry about

D^{6(add9)}/E **E**

We've got nothing to worry about

E

The faces of all the men on the T.V. do nothing more than lie and deceive me

D^{6(add9)}/E

E

Promising in nuclear there is safety above and beyond that of willful diplomacy

E

But, we've got nothing to worry about, we've got nothing to worry about

We've got nothing to worry about

So we all go along and fight this good fight, and kill wrong for truth and search of what's right,

But somewhere along the way stop to say—I don't want the world to go on this way

 Eich kol hatzava shar: hal'luyah, hal'luyah!

Sing 4 times

E

But, we've got nothing to worry about, we've got nothing to worry about

If we lay down

our guns and our swords

D^{6(add9)}/E **E**

We've got nothing to worry about

Will it bring peace

and stop all the war

If there was no need for guns, we'd sing hal'luyah.

If peace would come, you would see how all the army sings: hal'luyah.
